MICHEL MONTECROSSA ABOUT HIS THE HOUSE OF TIME

COURAGE & LOVE MUSICAL SERIES:

"I started the House Of Time musical series to show the supremacy of love and consciousness when I became bored with everything I saw. There was nothing to be seen anymore. Everything was recycled in the eleventh generation. The outlook couldn't be more depressingly one-dimensional, overproduced and just junk. It was time for 'The House Of Time'.

'The House Of Time' is a Daisy Cutter Fullstream-Of-Consciousness movie series opening wide the gates for the new culture of multidimensional Film Art ushering in the next era of seeing that is deeply sensual, exciting, seismographic and satisfying, leading out of the holocaust of hate and morality. It's the Go-For-It Brand of movie making loaded with subliminal messages feeding the super-sensitive brain totality with the virtuality-organicity overlapping of Libido and Death-Fear drive.

Fullstream begins where Mainstream ends.

'The House Of Time' series is Cinema Art liberating love and consciousness for good. Ended are linear stories of linear persons through the mind-enhancing realities and epic tales of Avatars and multiple virtual and organic personalities. Now you can leave your underwear, put on a see-through clingy, colorful Jeans and enter the state of extreme erotic arousal.

The messages of 'The House Of Time' are embedded in everything and the crutches of low-key existing are overcome making room for seeing beyond seeing where the automatic soul, the sensual soul, the living soul, the industrial soul, the

sexual soul, the functional soul become apparitions of war on the skin of the inventor of the first star but in truth are magic on the mad border where friends meet again and are devouring all violence as the Mother of Sex.

'The House Of Time' series is the deep brain triumph of virtuality and organicality in the heart of Cyberwarrior Champ Michel pumping the blood of acutely telling images, songs and the power of compelling mastery over destiny into the impertinence of normality.

'The House Of Time' series changes dead cellies, dull cinemas, empty pads and television sets into spy-glasses revealing the mathematical riddle of women and men in love as the comment of irrationality on cybernetic supra-rationality reflected in the mirror of anything whatsoever.

'The House Of Time' series is limitless and ecstatic Courage & Love Musical Action confronting the Dark Earth of climate change and its hyper-neurotic condition of spiritual, humanitarian, economical and ecological crises, liberating from fear caused by the meaningless through revealing redefinitions of the weird hacker halo of our existence in terms of new consciousness comprehension, victoriously claiming the future as the stage for the Bright Earth and its delight."

STORY

PART TWO: 'EVERY DAY IS THE DAY'

The Sky-City saga of virtuality and organicity continues with Cyberwarrior Michel liberating the media- and love power of Astrid by creating her Avatar Liberty Astrid and her personalities of Sexplay Astrid and Oracle.

It gets totally hot with Cyberwarrior Michel, his girls Mystery and Hazel and the Agent-Dancer Hussein activating their Avatars, their virtual-erotic personalities and action pals to blow the entire concept of Sky-City and Astrid's studio up into a supra-psychological interaction with Cyberwarrior Michel's brainstorm songs. They are pushing organic and virtual

world forward into an ultimately liberating total orgasm of consciousness.

Libido now is beginning to conquer death and Cyberwarrior Michel's organic brain, which in virtuality is Sky-City's secret brain, gives to virtual world powerful shots of sensual organicality through the erotic life-energy of Cyberwarrior Michel, Mystery, Hazel, the Agent-Dancer Hussein, their Avatars and virtual personalities.

The Agent-Dancer Hussein at this point is sent by Liberty Astrid as the Avatar Cyberhussein and her Queen of Spain personality Maya on the way to Cyberwarrior Michel to bring to him messages needed for overcoming the hatred brought into reality chaos through the ever expanding overlapping of virtual world and organic world in Sky-City.

Cyberhusseins's journey is laying out the map of the House Of Time which in turn is the matrix for the ,Courage Ride Combat Game' conducted by Liberty Astrid for overcoming the fears that endanger the unity of virtuality and organicality.

Cyberwarrior Michel senses the rapid changes of this game without rules and through his Consciousness-Stream-Music and together with his Avatar Mike, his virtual personalities and his virtual friends enters the game-zone for top hot adventures in an entirely new dimension ...
